

# CEO

digital health crc

The Digital Health Cooperative Research Centre (DHCRC) has been recently established with an investment over 7 years of \$56m cash and \$120m in kind from its 80+ partners, along with a grant of \$55m from the Australian Government CRC Program.

DHCRC seeks to appoint an inspiring, energetic and collaborative CEO to lead this complex research organisation to deliver high impact in the public domain and commercially. Possessing the full suite of executive leadership skills, the CEO will have a comprehensive understanding of the challenges associated with health, as well as the credibility and track record to lead the DHCRC to achieve quality results across its research, education, and research translation activities. The role is based in Sydney.

For further information on the role and how to apply please contact Ruth Hayes at  
Felix Consulting, 02 8920 9844 or [ruth.hayes@felixconsulting.com.au](mailto:ruth.hayes@felixconsulting.com.au).
